

Exhibit

Chamber-Wide MNPI Pattern Scan

Scope. All 413 House Members with Periodic Transaction Report activity in the House Clerk PTR corpus (124,944 transactions), windowed against NDAA-enactment, NDAA-markup, and CMS-rulemaking date windows.

Count supported. Count 2 (front-running of NDAA enactments) and Count 3 (financial-interest conflicts). This exhibit situates respondent's own activity in the chamber-wide distribution and identifies peer outliers whose pattern is either adjacent or materially stronger than respondent's own.

1. Headline

Chamber-wide windowed dollar volume across all 413 House Members with PTR activity is \$31.84 million out of \$10.665 billion total PTR volume (0.30%). Most House trading is not in the NDAA or CMS windows, which is why outliers stand out.

- Absolute-dollar #1 — **Michael T. McCaul (TX-10, House Foreign Affairs) — \$10.33 million windowed**, dominated by eight General Electric defense-prime trades in NDAA windows (the 2022-12-14 SP+DC \$1M–\$5M bracket purchases nine days before NDAA FY23 signing are discussed at §3 below).
- Absolute-dollar #2 — **Ro Khanna (CA-17, House Armed Services) — \$7.82 million windowed**, split \$1.76 million defense-prime and \$6.06 million pharma.
- Rate #1 — **Franklin FL-18 — 50% sector-windowed** (chamber P99 is 41.76%). Pharma × CMS rate is 100% (10 of 10 pharma trades clustered on the CMS-rulemaking dates).
- Rate (pharma × CMS) — **James MI-10 — 100%** (8 of 8 pharma trades in CMS windows).

2. Top 15 Members by absolute-dollar windowed exposure

Rank	Member	District	Total tx	Sector-tagged	Windowed \$	Defense-prime NDAA \$	Pharma CMS \$	Windowed %
1	McCaul, Michael T.	TX-10	11,334	24	\$10,330,000	\$10,210,000	\$120,000	4.66%
2	Khanna, Rohit	CA-17	36,297	415	\$7,820,000	\$1,760,000	\$6,060,000	14.99%
3	Hern, Kevin	OK-01	820	25	\$1,665,000	\$1,075,000	\$590,000	30.12%
4	Roe, David P.	TN-01	4,333	46	\$960,000	\$730,000	\$230,000	10.95%
5	Gottheimer, Josh	NJ-05	3,405	41	\$650,000	\$155,000	\$495,000	6.45%
6	Fields, Cleo	LA-06	222	5	\$565,000	\$565,000	—	3.47%
7	MacArthur, Tom	NJ-03	3,847	6	\$560,000	\$295,000	\$265,000	7.06%
8	Manning, Kathy	NC-06	691	32	\$515,000	\$45,000	\$470,000	23.02%
9	Frankel, Lois	FL-21	1,597	27	\$405,000	\$210,000	\$195,000	24.77%

Rank	Member	District	Total tx	Sector-tagged	Windowed \$	Defense-prime NDAA \$	Pharma CMS \$	Windowed %
10	Franklin, C. Scott	FL-18	104	10	\$375,000	—	\$375,000	50.00%
11	Conaway, Mike	TX-11	1,384	12	\$320,000	\$220,000	\$100,000	8.96%
12	Harshbarger, Diana	TN-01	1,096	20	\$300,000	\$270,000	\$30,000	16.39%
13	Fallon, Pat	TX-04	320	3	\$280,000	\$280,000	—	3.49%
14	McClain, Lisa	MI-09	345	2	\$265,000	\$265,000	—	9.52%
15	Allen, Rick	GA-12	287	5	\$250,000	—	\$250,000	21.74%

Respondent ranks #2 chamber-wide on absolute-dollar windowed exposure. This exhibit is the comparative-placement anchor for Count 2 and Count 3 at the chamber scale; respondent's windowed exposure sits above 411 of 413 House Members by dollars. The two-universe baseline required by the chamber-baseline disclosure rule is addressed in the peer baseline exhibit: on rate-based metrics, respondent is below chamber median; on dollar-weighted composite metrics, respondent is above chamber P90.

3. Top 10 Members by windowed rate (minimum 10 sector-tagged trades)

Rank	Member	District	Windowed %	Defense-prime NDAA %	Pharma CMS %	Windowed \$
1	Franklin, C. Scott	FL-18	50.0%	—	100.0%	\$375,000
2	Rutherford, John	FL-04	40.7%	42.9%	47.1%	\$165,000
3	Delaney, John	MD-06	40.0%	40.0%	—	\$60,000
4	Doggett, Lloyd	TX-35	37.5%	—	37.5%	\$90,000
5	Hern, Kevin	OK-01	30.1%	45.0%	41.2%	\$1,665,000
6	Williams, Roger	TX-25	30.0%	—	75.0%	\$45,000
7	Scott, Austin	GA-08	26.9%	36.8%	—	\$175,000
8	Miller, Carol	WV-01	25.0%	—	33.3%	\$200,000
9	Stanton, Greg	AZ-04	25.0%	—	50.0%	\$135,000
10	James, John	MI-10	25.0%	—	100.0%	\$120,000

Chamber percentile distribution on the sector-windowed-rate metric: P50 = 6.74%, P75 = 11.78%, P90 = 21.87%, P95 = 25.00%, P99 = 41.76%. Nine Members sit at or above P99.

4. Peer outlier in detail — McCaul (TX-10) GE NDAA FY23

On **2022-12-14**, two purchases of General Electric (GE Aerospace — military engines for the F-16, F-18, B-1):

Owner	Type	Bracket	Window
SP (Linda Mays McCaul)	P	\$1,000,001 – \$5,000,000	NDAA enactment
DC (dependent child)	P	\$1,000,001 – \$5,000,000	NDAA enactment

Combined family position: \$2 million – \$10 million on a single day. NDAA FY23 was signed into law nine days later on 2022-12-23, authorizing \$858 billion in defense spending and including Ukraine weapons-aid provisions the Chair-elect of House Foreign Affairs had classified-briefing access to.

Full GE NDAA-window detail on the McCaul family ledger:

Date	Owner	Type	Bracket	Window
2016-04-08	SP	P	\$1K–\$15K	NDAA markup
2019-05-21	SP	P	\$1K–\$15K	NDAA markup
2019-05-21	DC	P	\$1K–\$15K	NDAA markup
2021-09-23	SP	P	\$1K–\$15K	NDAA markup
2022-12-14	DC	P	\$1M–\$5M	NDAA enactment
2022-12-14	SP	P	\$1M–\$5M	NDAA enactment
2023-01-11	SP	P	\$1K–\$15K	NDAA enactment
2023-12-18	SP	P	\$1K–\$15K	NDAA enactment

The December 14 trades are approximately 100 times larger in dollar bracket than every other GE position in the family portfolio — not a passive rebalance. Subpoena targets for the McCaul single-event: McCaul SP+DC brokerage statements December 2022; Linda Mays McCaul Partners II LTD holdings ledger; pre-trade intelligence-access logs for the HFAC Chair-elect classified briefings.

5. Peer outliers — pharma × CMS 100% rate

Franklin (FL-18) — 10 of 10 pharma trades in CMS windows

Date	Ticker	Type	Bracket	Owner
2023-09-11	PFE	S	\$1K–\$15K	JT
2023-09-11	MRK	S (partial)	\$15K–\$50K	JT
2023-09-11	JNJ	S (partial)	\$15K–\$50K	JT
2024-08-01	PFE	S	\$1K–\$15K	—
2024-08-02	JNJ	P	\$1K–\$15K	—
2024-08-02	AMGN	P	\$1K–\$15K	—
2024-08-02	MRK	P	\$1K–\$15K	—
2024-08-06	PFE	S	\$15K–\$50K	—
2024-08-07	AMGN	P	\$50K–\$100K	—
2024-08-07	JNJ + AMGN + MRK cluster	P	various	SP

The August 2024 cluster of seven pharma trades over seven days coincides with Medicare Part D drug-price negotiation round two (CMS announced initial offers in July 2024; final prices in August 2024). The September 2023 cluster of three pharma sells coincides with CMS’s first selected-drug-list announcement on 2023-08-29. Franklin moved into pharma names just as CMS finalized Part D prices.

James (MI-10) — 8 of 8 pharma trades in CMS windows

Date	Ticker	Type	Bracket	Window
2023-11-10	MRK	P	\$1K–\$15K	CMS
2023-11-10	ABBV	P	\$1K–\$15K	CMS
2023-11-10	BMJ	P	\$1K–\$15K	CMS
2023-11-10	JNJ	P	\$1K–\$15K	CMS
2024-01-18	BMJ	S	\$1K–\$15K	CMS
2024-09-04	ABBV	S	\$1K–\$15K	CMS
2024-09-04	JNJ	S	\$1K–\$15K	CMS
2024-09-04	MRK	S	\$1K–\$15K	CMS

A classic pharma-basket buy in November 2023 and sell in September 2024 — both overlapping CMS Medicare Advantage star-rating rulemaking windows.

Neither Franklin nor James sits on House Armed Services, Ways and Means Health, or Energy and Commerce Health Subcommittee per the public 119th-Congress committee rosters. The information-asymmetry mechanism on their 100% pharma × CMS rates therefore requires explanation outside the committee-jurisdiction model — a family-trust portfolio manager with CMS-aware timing; an external tip channel; or pattern trading against public CMS calendars as a non-MNPI but still actionable signal.

6. Peer outlier — HASC Member with high defense-prime NDAA rate

Member	District	Defense-prime NDAA %	Def- prime trades	Def-prime NDAA \$
Benishek, Dan	MI-01	100.0%	2	\$30,000
Wittman, Rob	VA-01	60.0%	8	\$120,000
Joyce, David	OH-14	60.0%	3	\$150,000

Rep. Rob Wittman (VA-01) sits on House Armed Services. A defense-committee Member with 60% of defense-prime trades inside NDAA windows — the sample is eight trades, but the rate is above chamber P99 — is a direct MNPI flag under 15 U.S.C. § 78j(b) and STOCK Act § 6, and warrants close examination of position sizing and directional accuracy.

7. Referral triage

Priority	Member	Rationale	Filing vehicle
1	McCaul (TX-10)	\$10 million+ family GE purchase nine days before NDAA enactment	OCC referral + SEC Section 16 analysis
2	Franklin (FL-18)	100% pharma × CMS rate; clustered-date pattern	STOCK Act §6 civil penalty + OCC
3	Hern (OK-01)	\$1.665 million at 30.12% — high volume and high rate	OCC + STOCK Act §6
4	James (MI-10)	100% pharma × CMS rate; symmetric buy-sell window	OCC + STOCK Act §6
5	Wittman (VA-01)	HASC Member with 60% defense-prime NDAA rate	OCC — committee-member MNPI
6	Rutherford (FL-04)	40.7% overall, 42.9% defense-prime	OCC
7	Scott (GA-08)	26.9% overall; already on the serial-late-filer list	Combined OCC + STOCK Act §6
8	Manning (NC-06)	23.0% overall; \$515K total	OCC

Respondent's own composite placement — chamber rank #2 on absolute-dollar windowed exposure — is the operative Count 2 and Count 3 anchor within the filing package. Peers above him on either dollars (McCaul) or rate (Franklin, Hern, James, Rutherford) are flagged here for the Committee's separate investigative discretion and for joint referral where evidence warrants.

8. Scope and caveats

- Window definitions are ± 30 days around NDAA enactment, NDAA markup, and CMS rulemaking dates. A tighter ± 14 -day variant exists in the underlying tables; rate numbers drop by roughly 40–60% when windows narrow.
- Sector tagging hit 10,200 of 124,944 PTR rows (8.2% coverage). Mutual funds, bond CUSIPs, limited-partnership interests, and private-company shares remain untagged. Under-tagging tilts the analysis toward overt-ticker Members and against family-LP-heavy Members. McCaul alone has 10,819 untagged trades — his true defense exposure may be materially larger than the \$10.33 million visible here.
- Upper-bound dollar sums use the high end of each PTR bracket (for example, \$1M–\$5M is scored as \$5M). Actual dollars are uniformly distributed within the bracket; a midpoint estimate divides aggregate figures by approximately two.
- Boundary dates for each window category are embedded in the underlying scan; treat boundaries as approximate.

9. Reproduce

-- Top by dollar volume

```
