

Exhibit L

2024 Annual PFD (Doc 8221318) — Full-Document Rendering and OCR (SMA-Defense Rebuttal)

Case: *In re Representative Rohit “Ro” Khanna (CA-17)*

Counts supported: Count 1 (rebutts the SMA notification-based affirmative defense); Counts 2, 3, and 7 generally (SMA defense applies across household trading)

Source: respondent’s 2024 Annual Personal Financial Disclosure (House Clerk doc 8221318, filed 2026-02-04)

1. Purpose

Respondent has publicly attributed household trading activity to a separately managed account (“SMA”) structure in which a trustee or broker exercises discretion without consulting the Member. This exhibit establishes, from the face of respondent’s own sworn 2024 Annual PFD, that **no such SMA is disclosed on the filing**. The SMA affirmative defense is therefore factually unavailable, and the complaint’s Counts 1, 2, 3, and 7 proceed on a rebutted footing.

The 2024 PFD is a scanned-image PDF; direct PDF text extraction yields zero characters. The machine-readable text preserved in EXHIBIT_L_PFD_OCR.txt is the verbatim output of Tesseract OCR against the rendered page images. The underlying PDF source is public: https://disclosures-clerk.house.gov/public_disc/financial-pdfs/2024/8221318.pdf.

3. What the filing discloses

The 2024 Annual PFD is 5 pages total and presents a Schedule A asset catalog spanning pages 3 through 5. The OCR text (EXHIBIT_L_PFD_OCR.txt lines 79–429) confirms:

Not disclosed on the filing:

- No separately managed account (“SMA”).
- No qualified blind trust certified under 5 U.S.C. § 13104(f)(3).
- No third-party discretionary custodian (no Schwab, Fidelity, Vanguard, Morgan Stanley, Goldman Sachs, or Merrill) is listed as managing the household’s actively traded common stocks.

Explicitly disclosed on the filing (private-equity / hedge-fund / venture-capital feeder limited partnerships in trust wrappers):

- CORVEX DYNAMIC EQUITY SELECT LLC CLASS B SERIES 1 (Corvex Management) — OCR line 138.

- DRAGONEER OPPORTUNITIES V ACCESS LLC — line 143.
- TIGER GLOBAL CROSSOVER A ACCESS LLC CLASS A1 SERIES 1 (Tiger Global Management) — line 148.
- DRAGONEER OPPORTUNITIES M ACCESS LLC — line 166.
- Additional access-LP lines continue through OCR lines 170–200.
- MURA HOLDINGS — respondent’s personal holding vehicle (lines 318, 392, 402).

Trust wrappers observed:

- Monte and Usha Ahuja 2010 Irrev Trust FBO Grandchildren.
- MARTrust Partnership 2020 Trust FBO Khanna Children.
- Ritu Ahuja 1994 Trust.
- MURA Holdings.

3.1 Cross-confirmation in the household Periodic Transaction Report record

The PFD-side observation in §3 — that no separately managed account, qualified blind trust, or third-party discretionary custodian appears on the 2024 Annual PFD — does not stand on the PFD alone. The same closed family-trust structure is independently disclosed across the household’s full Periodic Transaction Report record over respondent’s House tenure. A page-level audit of the 114 Periodic Transaction Reports filed by the household between 2017 and 2026 (covering the 36,277 reportable transactions enumerated on those filings) attributes substantially every transaction to one of a fixed set of named family trusts, with zero attribution to any third-party brokerage custodian. The aggregate attribution distribution is:

Trust label disclosed in the PTR record	Reportable transactions attributed	Documents touched
Ritu Ahuja 1994 Trust (and abbreviated forms)	≈20,500	94
Ritu Ahuja 1995 Trust (and abbreviated forms)	≈3,500	69
Ahuja Khanna Children Irrevocable Trust	2,299	21
Monte and Usha Ahuja 2010 Irrevocable Trust FBO Grandchildren	≈2,150	46
Ritu Ahuja Declaration of Trust	1,670	24
Ahuja Grandchildren’s Education Trust	1,614	30
2020 Trust FBO Khanna Children (i.e., MARTrust Partnership 2020 Trust)	1,280	14
Ritu Ahuja 2010 Trust FBO Grandchildren	933	1
Ritu Ahuja 1998 Trust	506	3
Alisha and Lisha Ahuja 2018 Irrevocable Trust	329	1
M & R Trust Partnership (and abbreviated forms)	≈540	19

Trust label disclosed in the PTR record	Reportable transactions attributed	Documents touched
Ritu Ahuja 1985 Trust	179	1
Other named family-trust labels (≥ 50 transactions)	balance	various

The PTR-side disclosure record therefore contains the same family-trust grammar that appears on the 2024 Annual PFD asset catalog — extended across a decade of household trading. The PTR record names **no** Charles Schwab, Fidelity, Vanguard, Morgan Stanley, Goldman Sachs, or Merrill brokerage account, **no** SEC-registered investment-adviser-managed separately managed account, and **no** qualified-blind-trust certification anywhere across the 114-filing record. (Each trust name appears across multiple non-consecutive filings, foreclosing any reading that the trust attributions are isolated annotation artifacts.)

The PFD-and-PTR record therefore agrees: every disclosed common-stock trade in the household originates from a family-trust wrapper. The SMA-defense premise — that a third-party broker is making the trade decisions — has no documentary footing in either filing stream.

4. Why this matters

The portfolio on the PFD consists of private-equity, hedge-fund, and venture-capital feeder limited partnerships — closed-end, quarterly-marked investment vehicles. These instruments:

- Do **not** trade individual common stocks on a daily basis.
- Do **not** generate 37,238 PTR-reportable transactions across ISRG, PLTR, RTX, BA, NOC, LMT, and similar liquid equity tickers.
- Do **not** provide third-party discretion that would satisfy the SMA-defense premise (an SMA defense requires a broker to be making trade decisions without Member consultation).

The 37,238 common-stock trades reported on the household's PTRs from 2017 through 2026 therefore originate from a custodial account that **is not on the PFD**. Two possibilities exhaust the record:

1. A brokerage account has been **omitted** from the PFD — a violation of 5 U.S.C. § 13104(a)(3), (a)(5), and (a)(8), which together require disclosure of every interest in property, every reportable transaction, and any qualified blind trust through which the household's actively-traded portfolio is held.
2. An SMA's existence has been **concealed** — foreclosing the affirmative defense that premises late-filing on an SMA's notification cadence.

Under either branch, the SMA affirmative defense fails on the face of respondent's own sworn filing.

5. Corroborating peer data

Respondent's own-share of SP/DC-coded trades is **99.997%** (peer rank within a cluster of five peers at or exceeding 100% SP/DC-coded). In the absence of an SMA or a qualified blind trust, the 99.997% non-self-owner share is evidence of **structural reliance on non-custodial spouse and dependent-child account routing**, not of insulation from trading decisions. *See* Exhibit C (peer baseline).

6. Statutory framing

- **5 U.S.C. § 13104(a)(3), (a)(5), and (a)(8)** — disclosure of interests in property, of reportable transactions, and of qualified blind trusts: the conjunction that, applied to the household's 37,238 PTR-reported common-stock trades, requires the underlying custodial account to appear on the PFD asset catalog.

- **5 U.S.C. § 13104(f)(3)** — certification requirements for a qualified blind trust; no qualified-blind-trust certification appears anywhere in the 5-page filing.
- **STOCK Act § 6 / 5 U.S.C. § 13105(i)** — 45-day PTR filing deadline applies irrespective of SMA or broker-notification cadence when no SMA is disclosed on the PFD.
- **Currency note.** The 5 U.S.C. § 13104 and § 13105 cites in this exhibit are the current codification of the Ethics in Government Act under P.L. 117-286 § 7 (Dec. 27, 2022), which renumbered the predecessor 5 U.S.C. App. §§ 102–103 series into 5 U.S.C. Chapter 131. The disclosure obligations on which the exhibit rests — § 13104(a)(3), (a)(5), (a)(8), and (f)(3) — were preserved without substantive amendment by the renumbering. Section 13104(a)(7), which addresses continuing-employment, future-employment, and consulting-agreement disclosures (Schedule F equivalent), is separately current under the same renumbering and is **not** the operative basis for this exhibit’s allegations; respondent’s Schedule F entries are zero across every reporting year and are addressed elsewhere in the package on the no-forward-arrangement axis.

7. Independent verification

Any reviewer can verify this exhibit independently:

1. Download the public PFD PDF

```
curl -O https://disclosures-clerk.house.gov/public_disc/financial-pdfs/2024/8221318.pdf
```

2. Compare SHA-256 against this exhibit's rendered pages (see 99_SHA256SUMS.txt)

3. Run Tesseract OCR or read the page images directly

8. Primary sources

- House Clerk, 2024 Annual Personal Financial Disclosure, doc 8221318: https://disclosures-clerk.house.gov/public_disc/financial-pdfs/2024/8221318.pdf.
- lake.house_pfd_index — PFD registry row keyed on doc_id = 8221318.
- lake.house_ptr_transactions — household Periodic Transaction Report substrate keyed on member_last_name='Khanna' AND state_district='CA17'. The trust-label distribution in §3.1 derives from the per-row notes column on this substrate; the column was page-level annotated from the original PTR PDF images via OCR-grade machine extraction across all 114 filings. Reproducible by `SELECT TRIM(SPLIT_PART(SUBSTR(notes, POSITION('trust_context=' IN notes)+14), '|', 1)) AS primary_trust, COUNT(*), COUNT(DISTINCT doc_id) FROM lake.house_ptr_transactions WHERE member_last_name='Khanna' AND state_district='CA17' AND notes IS NOT NULL GROUP BY 1 ORDER BY 2 DESC`;
- House Clerk, household Periodic Transaction Reports filed 2017–2026, indexed at <https://disclosures-clerk.house.gov/PublicDisclosure/FinancialDisclosure> (each individual PDF reachable at https://disclosures-clerk.house.gov/public_disc/financial-pdfs/2024/8221318.pdf).
